

ASTAR – AVACO

Vacuum Therapy

DESCRIPTION

Avaco, as the vacuum therapy unit, is a perfect supplement for electrotherapy units. Operated independently, the unit may work as a vacuum therapy unit, in connection with the electrostimulator it may be used for the application of currents by suction cups with integrated electrodes. Thanks to the vacuum placement of electrodes, performing treatments is considerably facilitated, especially in the areas where it is difficult to place the plane electrodes. Moreover, in pulse mode the effect of mechanic massage occurs which gives additional advantage – increase of blood flow and metabolism. Synchronized mode with generated current is an innovative feature. Vacuum is boosted in stimulation phase and decreased in rest time. This mode is dedicated to cooperation with training programs generated by the electrostimulator.

FUNCTIONALITY

- self-sealing suction cups
- two output circuits
- the possibility of vacuum adjustment
- independent sockets for the application of electrodes for electrotherapy
- effective and silent pump
- ergonomics
- complete control over the parameters while performing the treatment
- mode dedicated to empty the water from the container
- detection of high water level in the container

OPERATION MODE

- continuous
- pulse
- pulse with variable pulses
- synchronized with current
- pulse with increased lower vacuum

SPORTS PHYSIO S.r.l. sede legale C.da Torrazze, snc – 95127 Catania

STRUCTURE

- modern design
- heavy-duty and reliable keyboard
- self-test – systematic control of the unit
- easy water emptying from the container

TYPES OF SUCTION CUPS

- Ø 60 mm
- Ø 90 mm

TECHNICAL PARAMETERS

- pulse rate 6, 12, 20, 40, 60 pulses/min.
- max. vacuum pressure 500 mbar
- vacuum adjustment range 100 – 500 mbar, step 40 mbar
- number of suction cups 4
- mains supply 230 V/20 W
- dimensions 30 x 26 x 12 cm
- weight max 3,5 kg

STANDARD ACCESSORIES

- mains cable
- electrotherapy connection cable (2 pcs.)
- patient vacuum cable (4 pcs.)
- suction cup Ø 60 mm (4 pcs.)
- viscose pad Ø 60 mm (8 pcs.)
- suction cup holder (2 pcs.)
- spare fuses
- User Guide

ACCESSORI DISPONIBILI

Suction Cup Ø 90 mm

Viscose pad Ø 90 mm
